FRIGHTENED BY A WORD—TECHNOCRACY

Copyright, 1933, by W. T. American, Inc. Great Britain Rights Reserved.

THIS IS THE DEVOURING MONSTER INVENTED BY TECHNOCRACY

"I am come that they might have life, and that they might have it more abundantly."

THOSE words, from the tenth verse, tenth chapter of St. John, apply to modern machinery. It has come not "to kill and to destroy," but that men may "have life, and that they may have it more ABUNDANTLY."

Millions of women sat, straining their eyes, sewing by hand. The sewing machine set them free. It was a great blessing. Now you are asked to believe that this invention was, in reality, A CURSE.

The farmer, far from the city or town, lived in isolation. Insane asylums were filled with farmers' wives, alone all day, with men in the fields. Then came rural mail delivery.

"Technocracy" is the bugbear that frightens some modern minds, an ingenious invention that lends passing notoriety to a few, the excuse of the feeble.

The greatest blessing of mankind, THE POWER OF MACHINERY, is called by technocracy the cause of all our woes, industrial, financial.

We produce TOO MUCH, therefore, we are unhappy. Men have invented machines that free them from the slavery of pick and shovel, ax and broom, and so they lack work and are hungry.

Nothing could be more preposterous than technocracy's teachings.

Machinery, science, inventive genius are blessings. But we do not know how to use them or control them and make them what they should be—THE SALVATION OF MANKIND.

Howard Scott, who is to modern technocrats what Mohammed was to Allah. He wrote a technocracy "Koran," that frightens some of our "best minds," able to think a little,

nothing to do, they will starve. To make such a machine is a crime." The inventor destroyed his model.

"Somebody else made a sewing machine and where

that the ghost of her grandmother might reside in one of those flies. She is wrong about that, and technocracy is wrong.

It is your duty to read all that you can on the subject of technocracy. To know and judge FOR YOURSELF is the only way.

Mr. Scott tells you that the United States has installed one thousand million horsepower of machinery, and if all that were operated at full capacity, night and day, "its output would be equivalent to the human labor of over five times the present total world population."

In other words, United States' machinery alone could produce five times as much as all the human beings in the world could produce by their own labor.

SO MUCH THE BETTER. The people of the United States NEED five times as much as all the people in the world could produce by their own labor. We need, in good times, and should have in all times, five to eight million new automobiles a year. All the skilled mechanical labor in the

What is Technocracy?

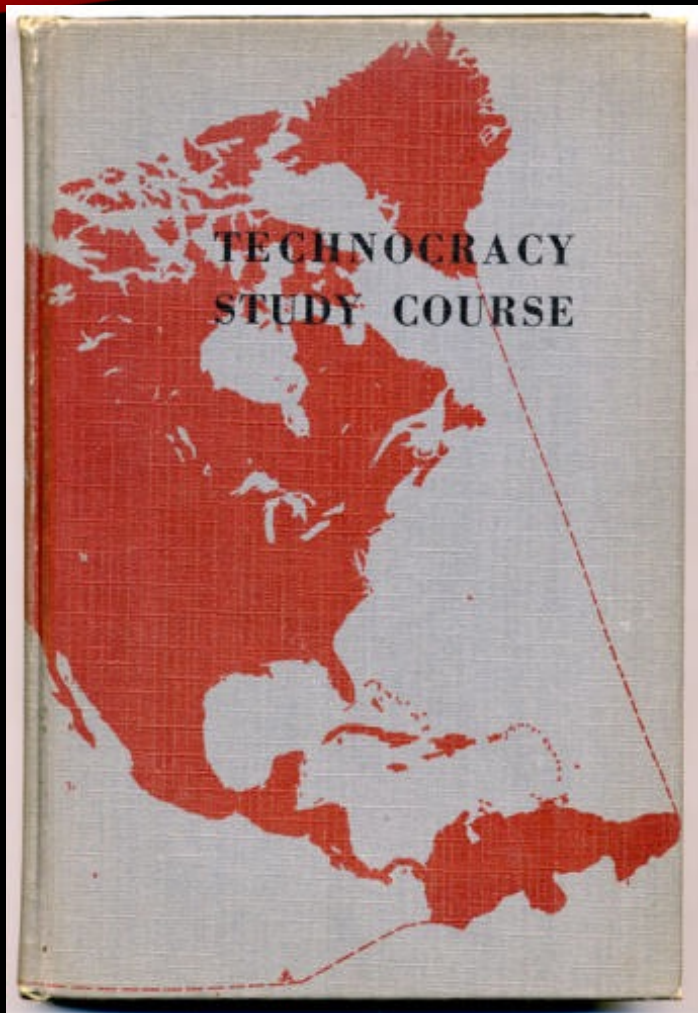

*Technocracy is the **science of social engineering**, the scientific operation of the **entire social mechanism** to produce and distribute goods and services to the **entire** population... For the first time in human history it will be done as a scientific, technical, engineering problem.*

– The Technocrat, 1937

*There will be **no place for Politics, Politicians, Finance or Financiers, Rackets or Racketeers...** Technocracy will distribute by means of a **certificate of distribution** available to every citizen from **birth to death.***

– The Technocrat, 1937

“Technocracy is dealing with social phenomena in the widest sense of the word; this includes not only **actions of human beings**, but also **everything which directly or indirectly affects their actions**.

Consequently, the studies of technocracy embrace practically the whole field of science and industry. **Biology, climate, natural resources**, and industrial equipment all enter into the social picture.” –

Technocracy Study Course (1934)

Key Fact

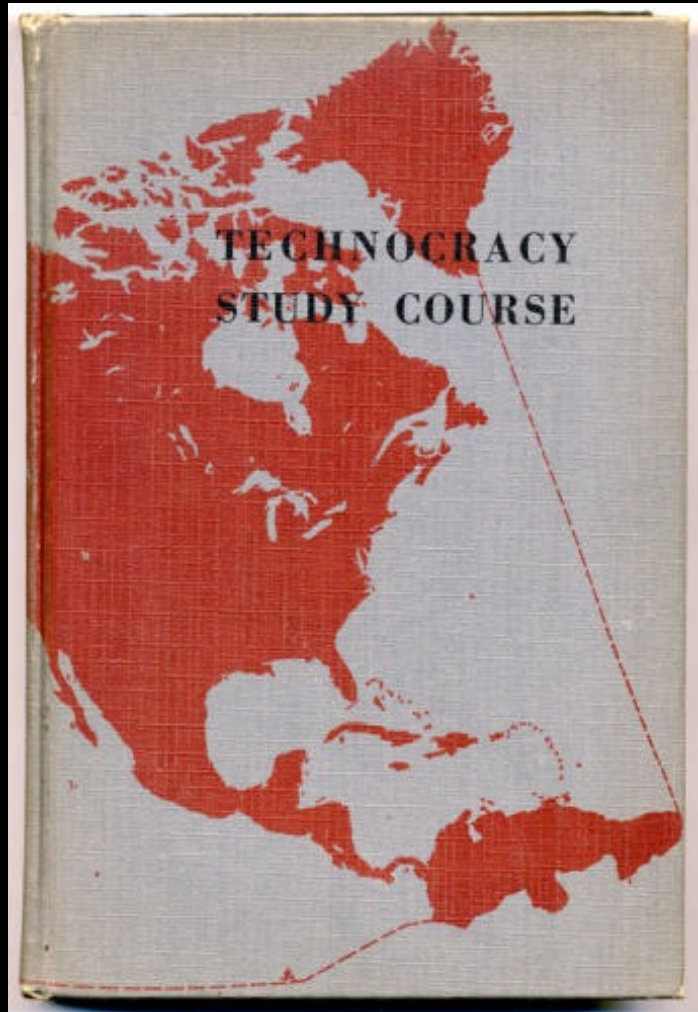

Technocracy is a resource-based economic system that uses energy as its accounting system.

It is the ONLY economic system ever modeled from scratch in the history of the world.

1934 Technocracy Requirements

- 1. "Register on a continuous 24 hour-per-day basis the total net conversion of energy."*
- 2. "By means of the registration of energy converted and consumed, make possible a balanced load. [Scott, Howard et al, Technocracy Study Course, p. 232]"*

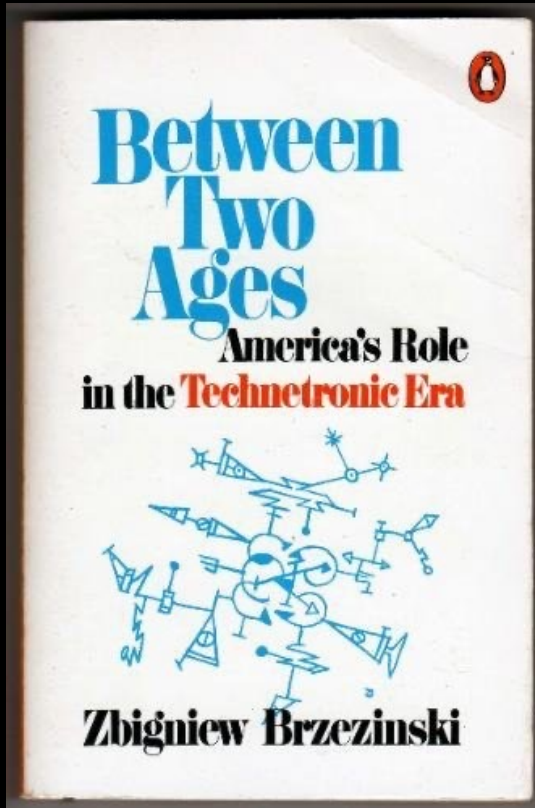

'Smart Grid' = Accounting for Technocracy

“There are large numbers of different bookkeeping devices whereby the distribution records and the of rate of consumption of the entire population can be kept. In a technological administration, **Energy Accounting is the only efficient method.**” – Technocracy Study Course

1934 Technocracy Requirements

3. *"Provide a continuous inventory of all production and consumption*
4. *"Provide a specific registration of the type, kind, etc., of all goods and services, where produced and where used*
5. *"Provide specific registration of the consumption of each individual, plus a record and description of the individual."* [Scott, Howard et al, Technocracy Study Course, p. 232]

1970

The postindustrial society is becoming a "technetronic" society.

Marxism represents a further vital and creative stage in the maturing of man's universal vision.

Paul Temple

A Totalitarian Fantasy —

Technocracy, Fascism, and the War

(April 1944)

Marxists hated Technocracy with a passion, and for good reason: technocrats would push man out of the picture altogether, resulting in a hierarchy of scientific dictatorship run by scientists and engineers. Technocracy wanted to do away with all political systems, including Communism and Socialism.

Technocracy is also known as:

- New International Economic Order
(**Trilateral Commission**)
- Sustainable Development (**United Nations**)
- Agenda 21
- 2030 Agenda
- Green New Deal (**Obama**)
- The Great Reset (**World Economic Forum**)
- The Fourth Industrial Revolution
- Stakeholder Capitalism

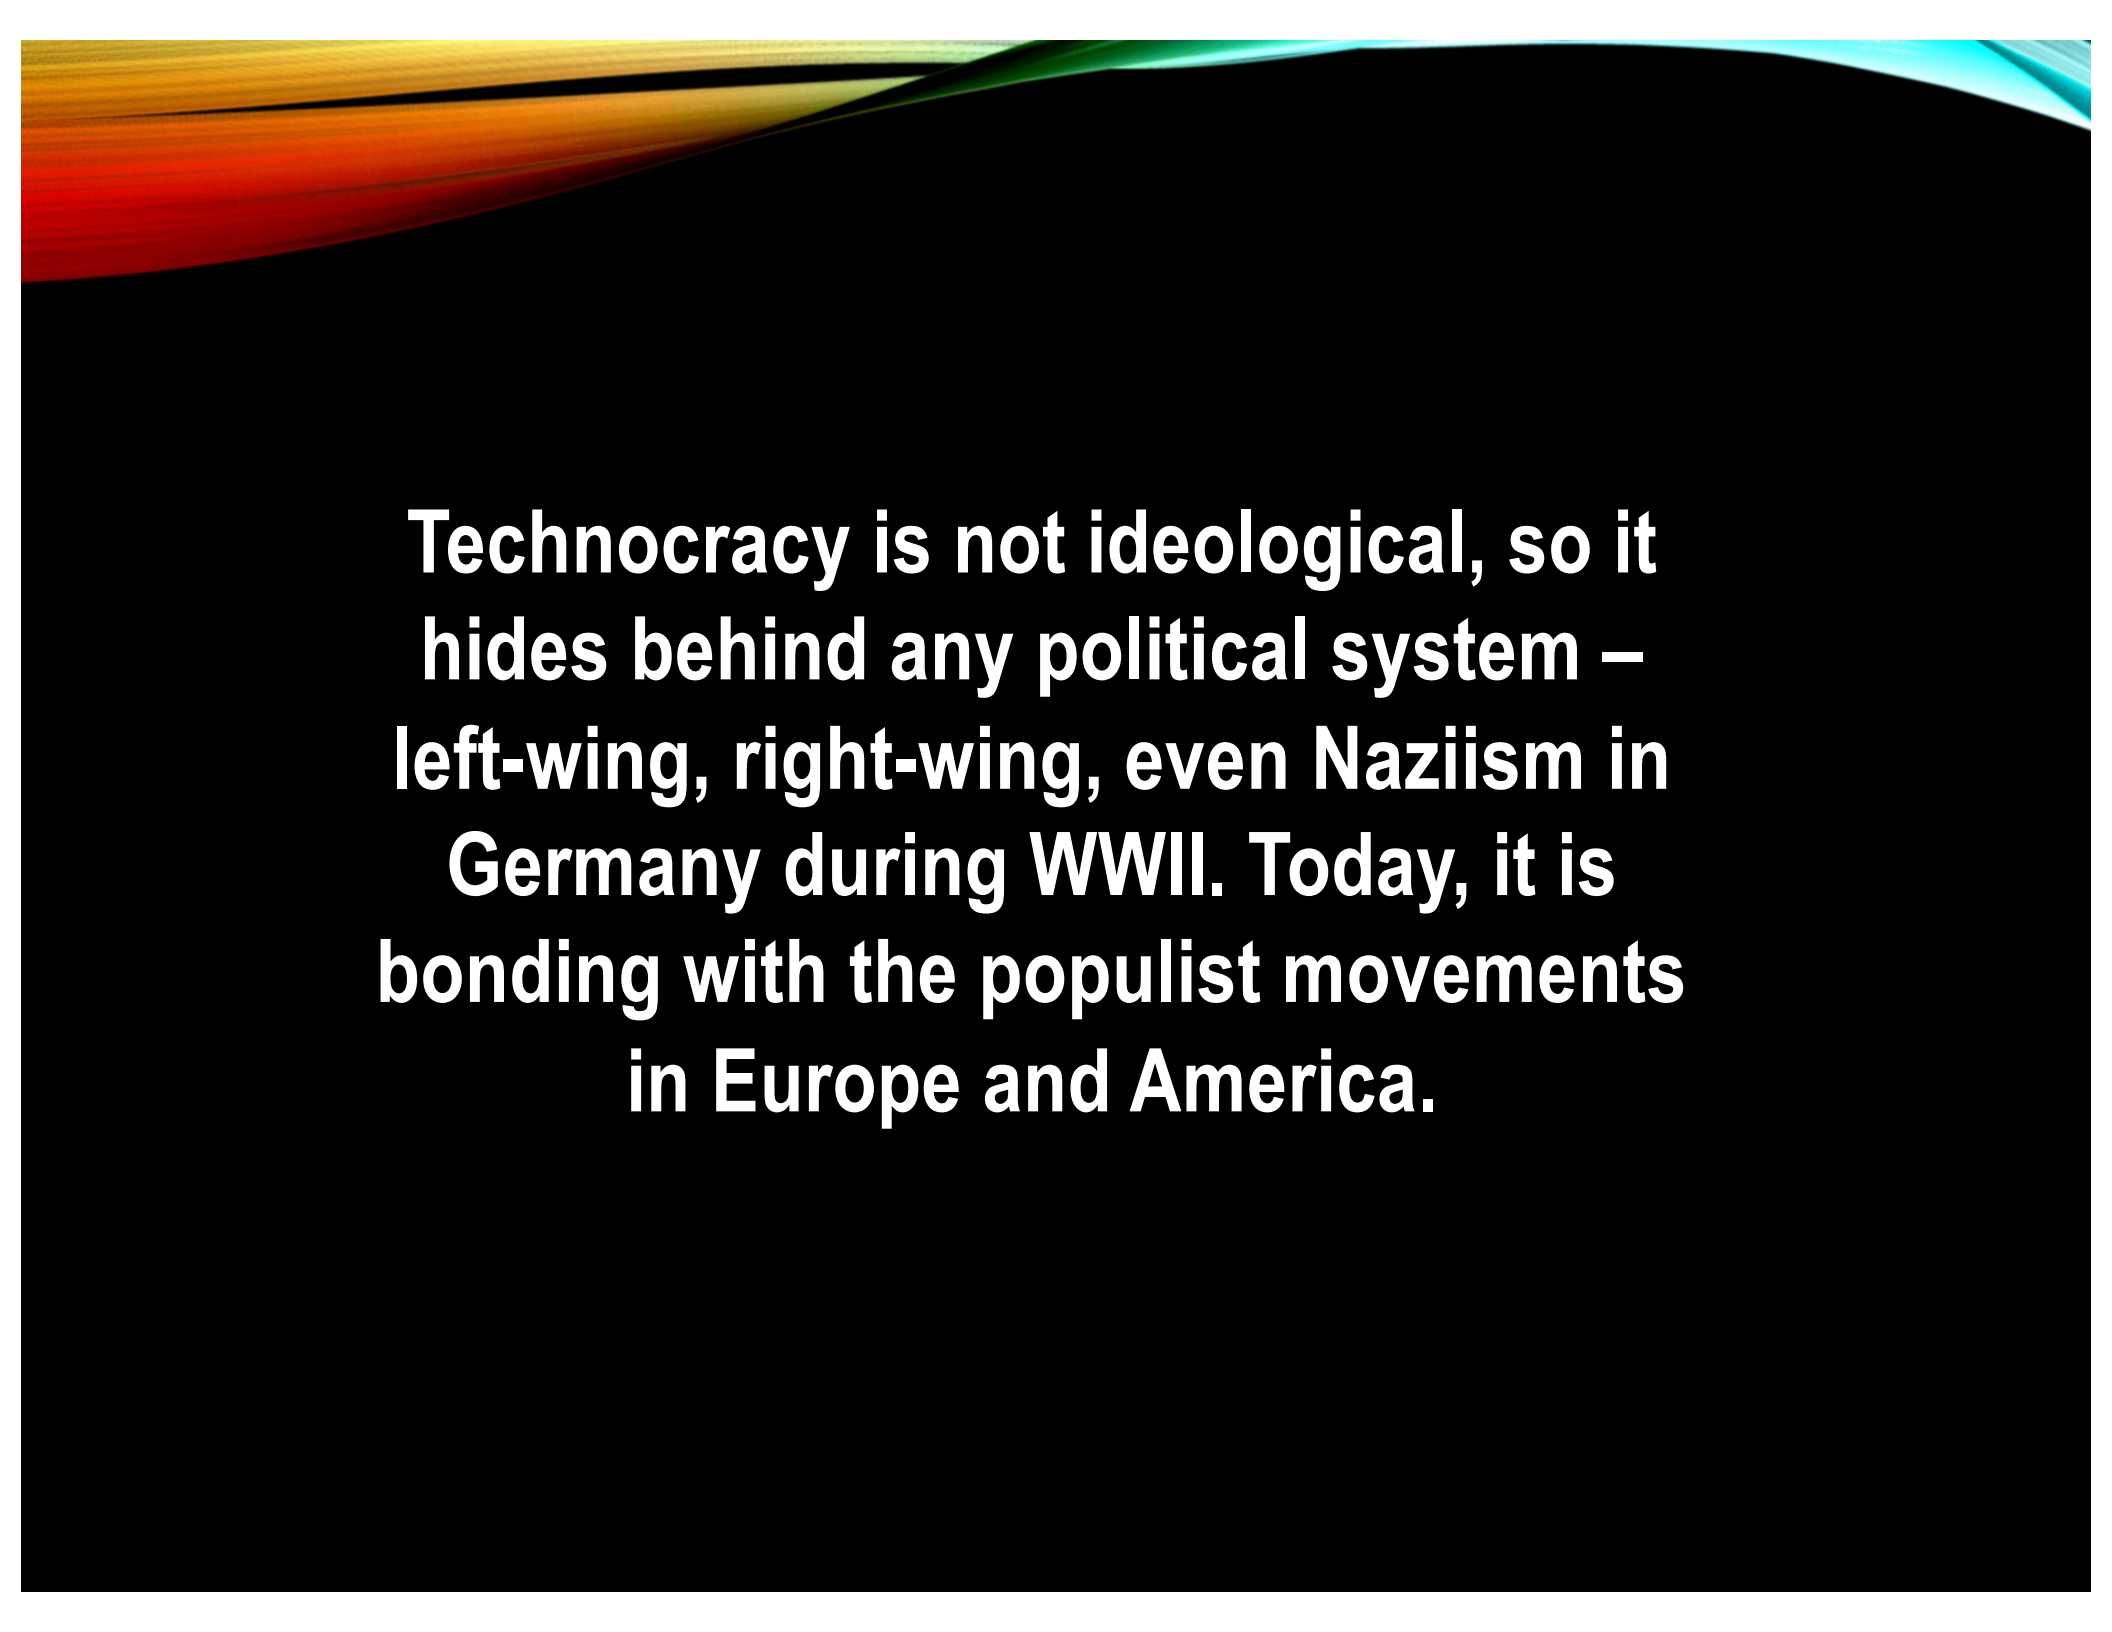

War On Technocracy

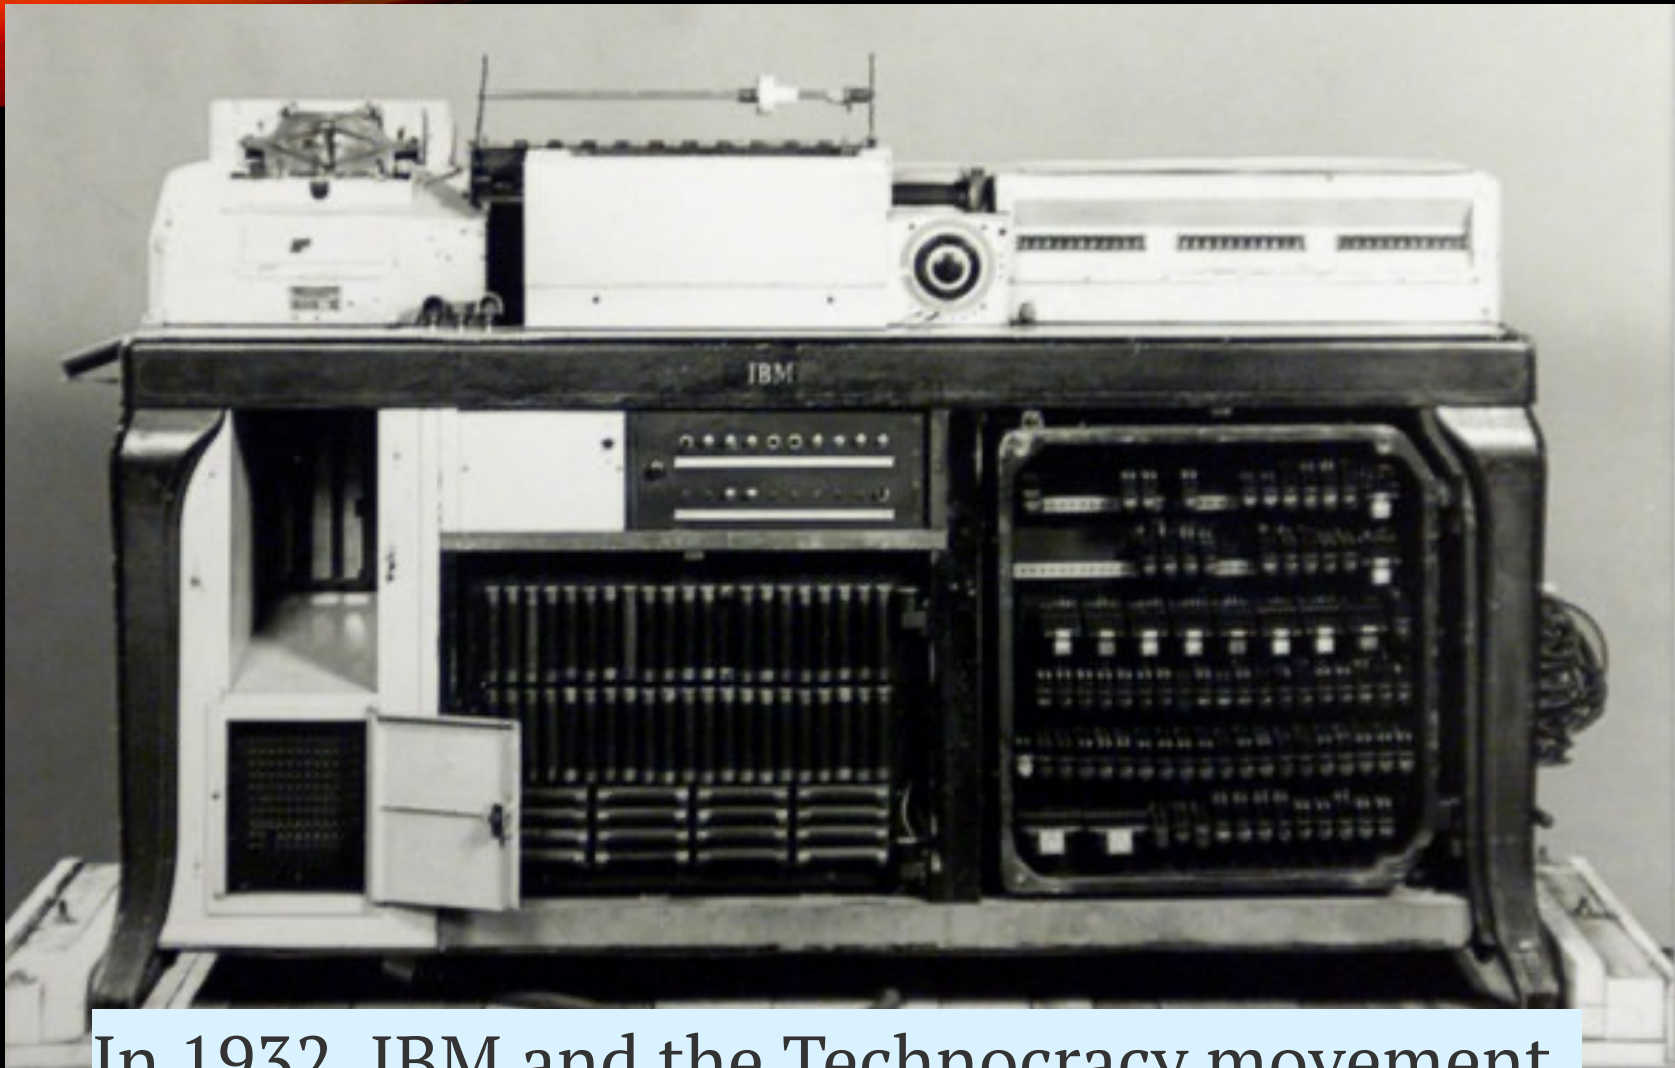

Patrick Wood
December 18, 2015

“America is being methodically and purposely conquered by an unseen enemy. Our shields are down. Our people are asleep. Our weapons are almost non-existent. The war has been waged in stealth, so the enemy has not yet been identified... until now!”

Technocracy News & Trends

**Technocracy is not ideological, so it
hides behind any political system –
left-wing, right-wing, even Naziism in
Germany during WWII. Today, it is
bonding with the populist movements
in Europe and America.**

In 1932, IBM and the Technocracy movement shared the basement of Hamilton Hall, which is where Hollerith tabulator was developed.

Operation Paperclip was a secret United States intelligence program in which more than 1600 German scientists, engineers, and technicians were taken from former Nazi Germany to the U.S. for government employment after the end of World War II in Europe, between 1945 and 59. Most were former members and leaders of the Nazi Party.

NAZI / NASA ROCKET SCIENTIST

From 1945 to 1955, Operation Paperclip granted nearly 1,000 German scientists American citizenship. Many had been longtime members of the Nazi party and the Gestapo and had conducted experiments on humans at concentration camps and committed other war crimes. The scientists ended up in the U.S. military industrial complex, worked with the CIA, NASA & more. One of the Nazi experiments that continued in America was mind control... known as the CIA's Project MK-ULTRA.

Unelected technocrats
are now the nation's
chief executives

On Democrats...

“We are reminded that the United States is a technocracy and not a democracy.

“The United States has now degenerated into the ideal technocracy—from the technocrat’s viewpoint.

“...That is, her [Kamala Harris] ‘base’ is the technocracy itself.”

On Republicans...

Technocracy's Final Assault? When Technocrats Came For The White House

If the Trump/Vance ticket succeeds in November, it will mark a significant victory for Technocracy in America.

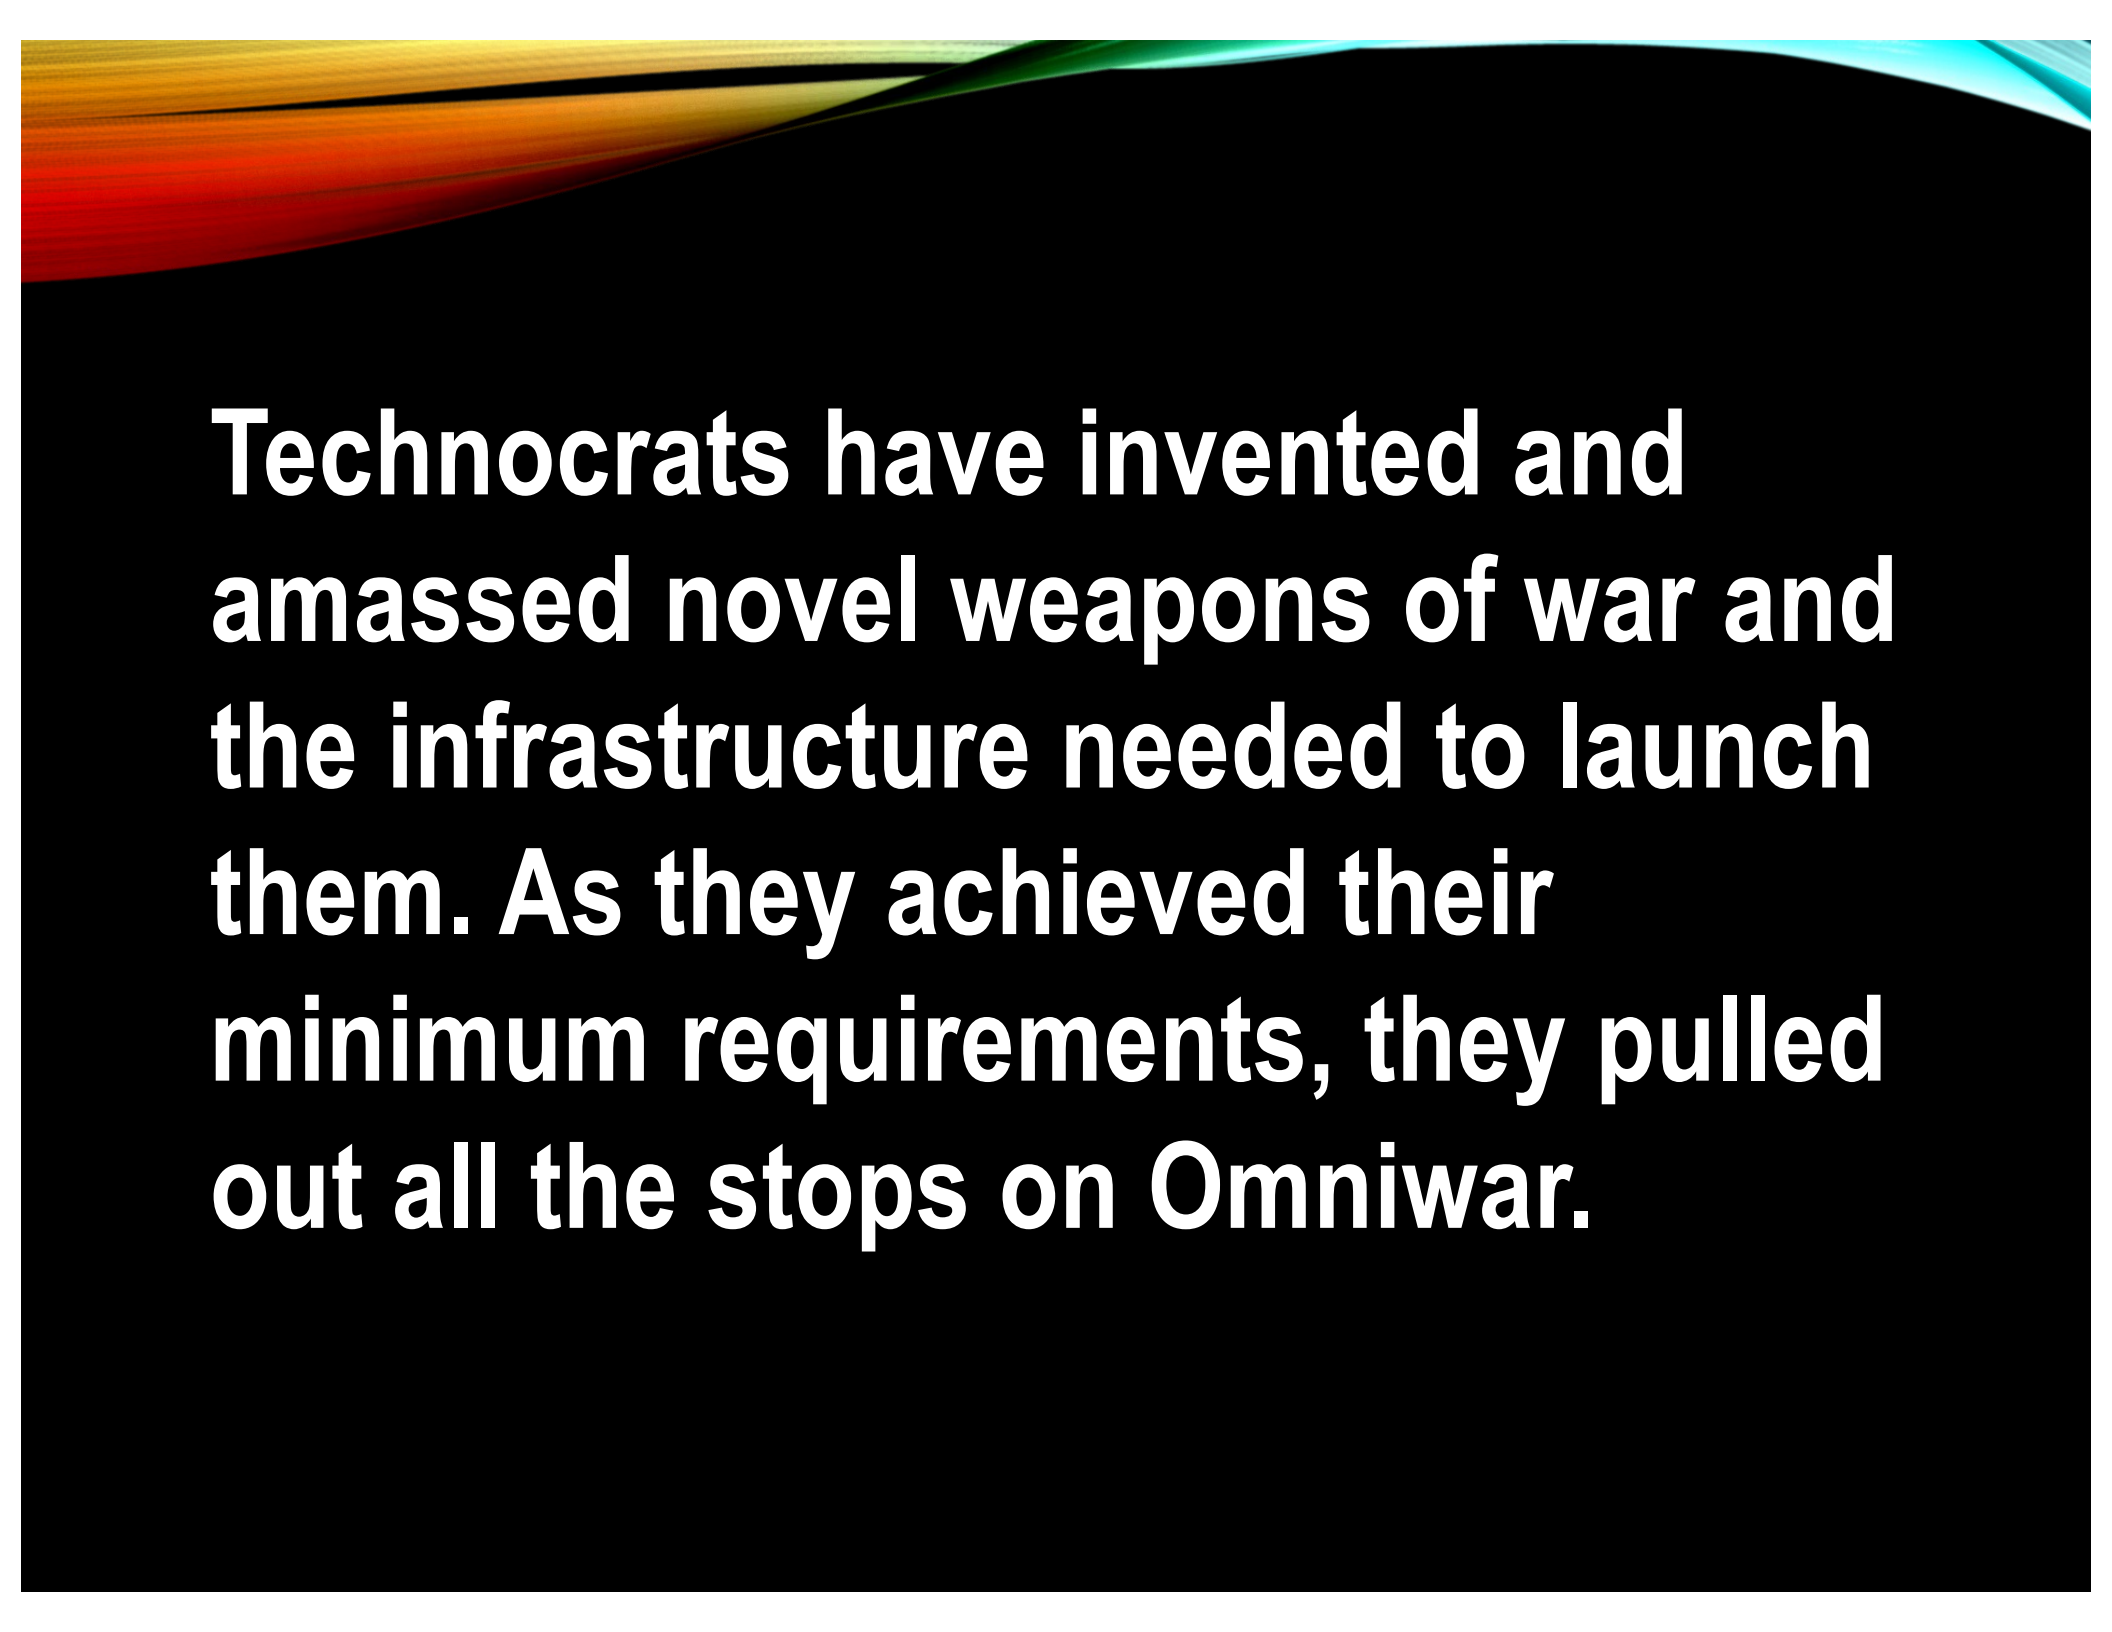

The Formalization of Technopopulism in America

The synthesis of populism and technocracy

TECHNOPOPULISM

Populists...	Technocracy...
Needs solutions	Needs sponsors
Based on people	Based on science & tech
Fluid, willing to bend	Inflexible, rigid
Loves popular politicians	Hates politicians
Creative thinking	Thoroughly Mechanistic
Will be pushed aside	Drives everything else out

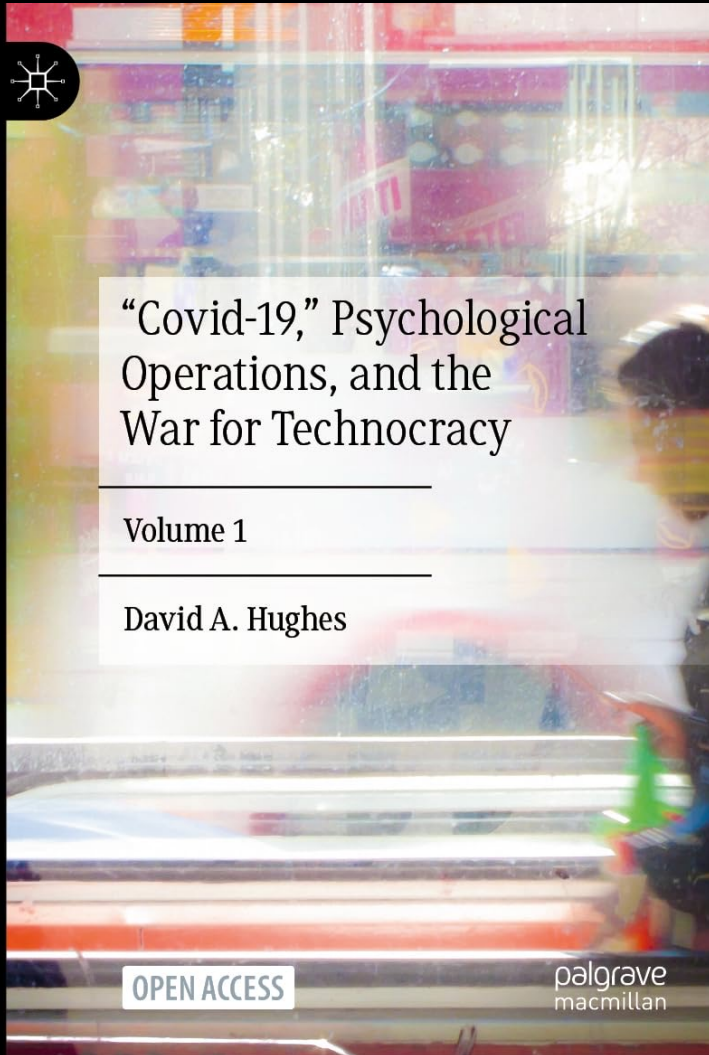

Technocrats have invented and amassed novel weapons of war and the infrastructure needed to launch them. As they achieved their minimum requirements, they pulled out all the stops on Omniwar.

Technocracy's Asymmetric Warfare

*... unconventional strategies and tactics adopted by a force when the military capabilities of belligerent powers are not simply **unequal** but are so **significantly different that they cannot make the same sorts of attacks on each other.** - Britannica*

Therefore, they have been attacking us ruthlessly and relentlessly while the nation-state has no defense against it.

“Technocracy will be worse than anything imaginable by Hitler or Stalin, because it amounts to the biodigital enslavement of humanity through biometric technologies, the “Internet of Bodies”, constant surveillance and monitoring, central bank digital currencies, and a Chinese-style social credit system.”

The image features a solid black background. At the top, there is a decorative border with a wavy, fluid shape. This border is composed of several overlapping bands of color: a bright yellow band on the left, transitioning into a deep red band, which then transitions into a vibrant green band, and finally a light blue band on the right. The colors blend into each other, creating a sense of movement and depth.

'Saving the World' = Destroying the World

The altruistic goals of Utopia are fake.

Technocracy cannot possibly deliver on its promises, now or ever.

The **real agenda** is two-fold:

- * **Grab all resources: land, water, air***
- * **Re-engineer society through a web of control by Scientific Dictatorship***

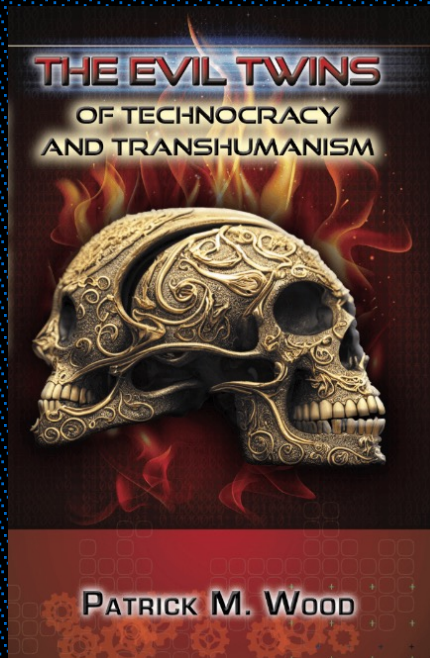

WHENCE OMNIWAR?

- ◆ Five years in, and it will intensify rapidly
- ◆ No effective resistance has yet been formed
- ◆ Both political parties and the populist movement have been taken over by Technocrats
- ◆ The next wave of assaults will use AI, from killing free speech to developing new biodefence tech
- ◆ The technology is so advanced that nobody can understand it – *“AI has scaled a million times in the past 10 years and we are now manufacturing digital intelligence at scale”*

ESCAPE THE MATRIX

- ◆ Don't play any role given to you
- ◆ Get in touch with your "humanness"
- ◆ Understand your own strengths and weaknesses
- ◆ Understand how to recognize propaganda
- ◆ Disengage from surveillance technology
- ◆ Develop friendships locally
- ◆ Develop food/goods networks locally
- ◆ Hug your friends and family

THANK YOU!
